

DATA WRANGLING	
Footage is offloaded, backed up, and archived across any combination of HDD, RAID, or LTO tape storage devices. For ease of use a copy is kept on-set allowing for instant review of footage.	£150 / day
+	
ON-SET DAILIES	
After offloading the custom looks can be applied and dailies / proxies generated for uploading to the cloud or streamed to iPads for review.	£100 / day
.....	
DIGITAL MASTERING	
All components of the film are assembled and a high quality master file is exported. From this multiple broadcast compliant deliverables can be created.	£80 / day
+	
RENDERING / EXPORT	
For a 10 minute runtime the total cost will be £35 (£3.50 x 10) in addition to the day rate.	£3.50 / minute
.....	
DCP CREATION	
Digital Cinema Packages can be generated from a single master file with the resulting DCP quality checked on a 2k DCI-compliant projector system.	£3.50 / minute
+	
QUALITY CHECK	
Audio and visual spot checks on a DCI compliant projector	£1.50 / minute
